10. Definitions

10.1. **Athlete(s):** refers to participants who are registered and financial member of an Athletics Australia Member Association

10.2. **Eligibility Rules for Competition:** any rules for competition or eligibility mandated by World Athletics in relation to Transgender and Gender Diverse Athletes, as amended from time to time.

10.3. **Gender Diverse** is an umbrella term that includes all the different ways gender can be experienced and perceived. It can include people questioning their gender, those who identify as trans/Transgender, gender queer, Non-binary, gender non-conforming and many more.

10.4. **Gender Identity** is defined in the Sex Discrimination Act 1984 (Cth) as ‘the gender-related identity, appearance or mannerisms or other gender-related characteristics of a person (whether by way of medical intervention or not), with or without regard to the person’s designated sex at birth’. For example, a person’s birth certificate may include a marker which indicates that the person’s designated sex is female when that person identifies as a man (in other words, their gender identity is that of a man).
10.5. **Intersex / Intersex Status** is a protected attribute under the Act. Under the Act “Intersex Status” means the status of having physical, hormonal or genetic features that are: neither wholly female nor wholly male; a combination of female and male; or neither female nor male. This policy does not specifically address Intersex variations. The term Intersex does not describe a person’s gender identity (man, woman, neither or both). A person with an Intersex variation may identify as a man, woman, neither or both.

10.6. **Member Association**: means any state or territory member organisation of Athletics Australia as per clause 7.1 of the Athletics Australia Limited constitution

10.7. **Non-binary** is a term used to describe a person who does not identify exclusively as either a man or a woman. Genders that sit outside of the female and male binary are often called Non-binary. A person might identify solely as Non-binary or relate to Non-binary as an umbrella term and consider themselves gender fluid, gender queer, trans masculine, trans feminine, agender, bigender or something else.

10.8. **Season** means the period in which a defined calendar of track and field competition and/or out of stadia competition is conducted by Athletics Australia or one of its Member Associations

10.9. **Sex** refers to a person’s biological Sex or sex characteristics. These may be genetic, hormonal, or anatomical. Whilst typically based upon the sex characteristics observed and recorded at birth, a person's Sex may differ from their Sex recorded at birth.

10.10. **Transgender** (commonly abbreviated to “trans”) is a general term used to describe a person whose gender identity is different to the Sex they were assigned at birth. Being Transgender is about how an individual describes their own gender. It is not necessarily about their biological characteristics.

10.11. **Transition** or **Affirmation** refers to the social, medical or legal steps that a Transgender person takes to affirm their Gender Identity. A Transition or Affirmation may or may not involve medical treatment, including surgeries or hormone therapy. People can Transition as children or as adults. Each Transition is different.

10.12. **World Athletics Categorised Competition**: any stadium or out of stadia competition that is categorised by World Athletics under clause 1.3 of the World Ranking Rules ([www.worldathletics.org/world-ranking-rules/basics](http://www.worldathletics.org/world-ranking-rules/basics)) where the Eligibility Rules for Competition apply. This includes category E National Permit Meets (and above) conducted in Australia, but excludes category F competitions for the purposes of this policy.
