

Welcome to our new website

sports management made simple.

Finally, a system which provides useful information to both member clubs and Croquet Queensland alike. The system CAQ is now using is a program developed by Revolutionise Sport, an Australian company based in Sydney.

Use the system on your desktop computer, iPad, tablet or your phone.

Most of the website works without the need to log in. However, the system works best if it knows who it's dealing with. So lets show you how do that.

Go to the new webpage: <https://www.revolutionise.com.au/caq/>

Step 1 If using an iPad or tablet, turn it horizontally

Step 2 On the top righthand side of the screen, hit 'log in'

If you can't remember your log in, or this is your first visit to the site, hit the 'forgot log in details', enter your email address and the system will send you an email telling you how to proceed.

Having logged in successfully your name will then appear next to the log in icon showing that you are, in fact, logged in.

The most likely cause of being unable to log in is if the email address is not the one registered with CAQ. If that is the case, contact CAQ and advise us of your new details.
