

What is the right registration type for me?

Hornsby District Athletics Club is a Onesport club, which means we are affiliated with Little Athletics NSW and Athletics NSW. There are different membership options depending on your age, and what type of activity you would like to do.

The annual season typically runs from 1st September to 31st August, with membership covering both summer and winter seasons.

To determine the best membership option for you, please follow the below flow chart for recommendations, or contact our registrar for help (registrar@hdlac.org.au)

Concession members are also welcome to participate in our weekly Little Athletics events, and will be encouraged to assist with coaching of younger athletes.

Community members are eligible to participate in club training and club cross country over winter.

Open members will be eligible to compete in State Championships and an array of ANSW organised interclub events. This membership is recommended if you would like to participate in wider competition in addition to club training.

Senior Community members are eligible to participate in club training, Hornsby Masters Interclub events and social activities.
