

BRENT BROWN

TECHNICAL COMMITTEE

I have been very fortunate to have experienced a hockey career that has allowed me many opportunities to work with amazing individuals and provide back to the sport that I love. I grew up around hockey fields coming from a hockey family who were often seen with a whistle in their mouth.

I was 13 when I first picked up a whistle and umpired at a number of state and national tournament before moving to focus on the technical space in 2013. Since then, I have had a number of exciting opportunities, while continuing to umpire locally and work as an umpire coach at State Championships.
