The teaching of Kano Jigoro Shihan

Judo is the way of using one's mental and physical strength in the most efficient manner. Through training and practicing techniques for offense and defense, one disciplines and cultivates body and spirit, and thereby masters the essence of this way. Thus, the ultimate goal of Judo is to strive for personal perfection by means of this and to benefit the world.

SECTION 1- NATIONAL GRADING POLICY OVERVIEW

1.1 INTERNATIONAL JUDO FEDERATION GRADING RATIONALE

The grades and the Dan ranks are very important in the education system of Judo. Our discipline has been conceived by its' founder, Jigoro Kano, as a physical and mental education system by practice and the grades are the measure of the student's progress. This progress is in the field of Judo, but the more one advances in the grade the more this measure takes into account, the individual's personal evolution as a human being.

The three components of the grade are:

The "Tai" (the body) – the assessment of the individual by competition results

The "Ghi" (the work) – the individual's technical knowledge

The "Shin" (the mind) – the most difficult to value, the individual's engagement and example as a role model.

Up to the promotion of 3rd Dan the "Tai" aspect is very important, then the "Ghi" aspect until 5th Dan and finally the "Shin". The three components must always be present, but it is their value that varies according to the grade. It is important to note that the value of "Tai" is important to progress in the grades. Indeed, one cannot have an education system based on the practice without making compulsory the result in practice.

The Judo Federation of Australia (JFA) recognises and awards grades according to the overarching International Judo Federation (IJF) Statutes, processes and criteria. Further detailed explanation can be located on the IJF website in the Grades section.

1.2 JUDO FEDERATION OF AUSTRALIA INTRODUCTION

The JFA is a member of the International Judo Federation and as such is given the authority, as the recognised National Judo Sporting Organisation, to grade, under their policy guidelines and criteria.

The IJF is a dynamic organisation and we have seen Judo develop dramatically as an international sport over the past decade. The introduction of annual Cadet, Junior and Senior World Championships as well as an international Judo competition circuit, including Kata and Veterans has necessitated an updating of our national grading policies to reflect the world framework and standards.

The JFA also acknowledges the standards of Japan's Kodokan Judo and Jigoro Kano's philosophy of continuous improvement be maintained for all members.

Equally, across Australian society, there is an expectation that our Grading policy is fair and consistent for all.

This policy acknowledges the diversity of club Judo coaches around Australia and provides a clear and specific criterion based framework to maintain a consistent grading standard, whether you live in a city or regional, rural or remote part of our large country.

We encourage all Member States, State grading authorities and club coaches, to uphold the integrity of our grading system by implementing this national JFA policy for the benefit of all members.

1.3 PURPOSE OF THIS POLICY

The JFA determined in 2016 that a review of the Grading Syllabus for all ranks should be undertaken to ensure continuing best practice for Judo and to refine the process to be undertaken for obtaining promotions within ranks.

The JFA under the authority of the IJF governs the sport in Australia. Judo as devised by Professor Jigoro Kano in 1882 encourages dedication to the sport and the development of technical excellence irrespective of age, colour, race or creed.

This policy details the prerequisites for Kyu and Dan Grades and the application process in Australia as set down by the JFA. This policy is binding on all members in all States of Australia.

Grading Authorities, Examiners and Instructors are advised that the requirements and standards detailed in this policy are the standards required.

It is important to note that applicants attaining the technical requirements of the grading syllabus do not automatically receive promotion. Attainment of the necessary standards is the final stage of the promotion process and only renders the applicant eligible for promotion, pending the final decision of the Instructor, Examiner or Grading Authority. Promotions can only be awarded by the JFA in the manner set out in this policy. This policy replaces all previous JFA National Grading policies.

1.4 MISSION STATEMENT

The JFA mission is to develop Australian Judo at all levels by addressing elite performance, growing participation and enhancing Judo's profile.

1.5 JFA VALUES

Our values are what define us as an organisation and all members are encouraged to enhance their Judo experience by bringing these values into their Judo pathway.

- Politeness behaviour that is respectful and considerate of other people.
- Sincerity the absence of pretense, deceit or hypocrisy.
- Modesty the quality or state of being unassuming in the estimation of one's abilities.
- Self-Control the ability to control oneself, in particular one's emotions and desires, especially in difficult situations.

- Courage strength in the face of pain or grief.
- Honour the quality of knowing and doing what is morally right.
- Respect due regard for the feelings, wishes, or rights of others.
- Friendship a relationship between friends

1.6 OBJECTIVES

- To foster understanding and preservation of Judo techniques and knowledge
- To document the grading requirements for rank promotions in Australia
- To document the technical and administrative requirements and processes to manage rank promotions in Australia.

In seeking to achieve these objectives, the JFA and its members must adhere to the procedures and guidelines described in the Constitution and this Policy as approved by the JFA and adopted by all Member States.

1.7 GRADING AUTHORITIES

The JFA, through the Chief Executive Officer (CEO), will facilitate the formation and ongoing capability of the National Grading Committee (NGC), with reference to the eligibility requirements to be a member of the NGC. The CEO will also appoint the chairperson of the NGC. Responsibility to remove any NGC member rests with the JFA CEO.

The Member State organisations will select and manage their own Grading Authorities and advise the JFA in writing within thirty (30) days of any changes to these Grading Authorities.

SECTION 3 - GRADING PROCESSES

3.1 GENERAL

The Grading Procedures and Guidelines contained herein have been approved by the JFA and adopted by all member States. Instructors and examiners are advised that the Procedures and Guidelines of this Policy are the standards required for all Judoka applying for promotion.

A grading can only be awarded if:

- a) The candidate is a registered member of a State body, recognised by the JFA.
- b) The grade is awarded according to the procedures laid down in this policy.

3.2 FINANCIAL CURRENCY AND ACTIVE PARTICIPATION

The applicant must have a cumulative total of financial years in grade equal to the minimum time in grade required for promotion. The applicant must have been participating in the sport of Judo unless being graded by the Knowledge Only in the Art of Judo method.

3.3 KYU GRADES

The JFA recognises that the strength of the organisation rests with the quality and development of member clubs.

Registered clubs together with registered senior coaches at the minimum rank of Sho Dan (1st Dan), can grade to the Junior Kyu grade and Senior Kyu grade levels as outlined in Sections 5.3 and 6.2.

All gradings must adhere to the processes outlined in this document and follow the requirements as outlined in Sections 5.4 and 6.4.

All coaches must maintain their continuous membership and coaching qualifications within their residing State.

3.4 KYU GRADING CERTIFICATES PROCESS

JFA Kyu grade certificates are issued by the State Grades Authority, who may delegate issuing of such certificates to their member clubs.

Only the official Kyu Grade certificate number will be recognised by the JFA.

All States are to maintain a grading register of their players and the grades they hold, date obtained and certificate number issued. States may pass this requirement to club level for grades up to and including Ik-Kyu (Senior brown belt).

3.5 DAN GRADES

All Dan Gradings must be conducted using a panel as defined in section 3.7 using the processes outlined in section 3.8 and 3.9 as applicable to the Dan grade promotion being sought.

No individual Dan Grade member has the JFA authority to grade at black belt level.

State Grades Authorities may recommend to their State Boards of Management promotion of ranks up to 3rd Dan via their recognised member grading authority.

State Boards of Management must recommend a candidate's promotion for Dan grades 4th Dan and above to the NGC for deliberation and recommendation.

Final ratification for promotion rests with the JFA after the applicant recommendations are forwarded from the NGC.

All Judoka who apply for a Dan Grading <u>MUST</u> undertake a grading examination following the requirements as set out in this grading policy.

The NGC reserves the right to approve a Grading Panel for all Dan Gradings of 4th Dan and above.

Applicants need to ensure that they meet the <u>time</u> and <u>points</u> requirements relevant to the grade they are seeking to attain.

Applications are forwarded to the relevant State Grading Authority, <u>eight (8) weeks</u> prior to the grading dates. This allows sufficient time for the verification of applicant details and the organisation of a suitably qualified Grading Panel.

The Grades Authority Convener of the relevant State will be responsible for the preparation and forwarding of all grading documentation to the JFA Office who will register the grading application request and then forward to the NGC chair for distribution to the NGC members for their comments.

The State Grades Authority should acknowledge they have received the applicant's application in writing within ten (10) days of receiving the documentation. A file copy of all correspondence including electronic correspondence must be kept for future reference.

All applications received for promotion should be actioned within six (6) weeks of receiving the application at either State or JFA level. All applicants should be advised in writing of the outcome of their application and a copy of all correspondence must be kept on file.

Applicants complete in full, an electronic JFA Dan Grade Application Form. This includes a passport size photograph and the payment of the relevant grading fee. A copy of the relevant grading forms for reference and member use can be found at Appendix A -1st Dan to 3rd Dan, Appendix B -4th Dan to 5th Dan and Appendix C for 6th Dan and above. Please note that incomplete or inappropriately signed off applications will not be processed by the JFA office.

The JFA maintains the National Dan Grade register.

JFA Dan certificates will be actioned by the JFA Office and IJF certificates by the JFA office via the Oceania Judo Union (OJU). It is important to document clearly, the candidate's results, together with their certification request and payment details. This vital step will help all too clearly understand requests for a JFA Certificate and / or the IJF Certificate.

The following processes are to be followed for all Dan Gradings undertaken across Australia by JFA member States. Failure to do so may result in the authority to grade being rescinded.

3.6 PREREQUISITES FOR STATE GRADING AUTHORITIES

State Grading Authorities are appointed by the State Boards of Management who must advise the JFA CEO in writing the names and grades of members of their Grading Authorities with a copy to the NGC chair within 30 days of selection to the Grading Authority.

State Grading Authority members should have the following prerequisites to be considered for the State Grading Authority:

- a) Members must be a minimum grade of 3rd Dan.
- b) Members must have a good understanding and demonstrated experience of the sport and art of Judo.

3.7 GRADING PANEL FORMATION

Grading Panels conduct examinations in consultation with the NGC and grade under the authority of the Committee on behalf of the JFA.

All grading examinations must be conducted by a grading panel.

The Grading Panel must have a minimum of three (3) Dan grades on the panel, one of who must be 2 grades higher than the highest applicant's rank being examined. For example, a Grading Panel for a 3rd Dan applicant sitting for 4th Dan promotion must have one JFA 6th Dan member.

State Grading Panels are authorized to conduct examinations/promotions on behalf of the JFA for Dan grades up to and including San Dan (3rd), on the provision that they adhere to this policy and its' processes.

All Dan grades of Yon Dan (4th) and above are graded by panels that are approved by the NGC. Grade panel members for examinations of Yon Dan (4th) and above must have at least one member who is 2 ranks higher in grade than the grade being attempted.

Grading Panels will make recommendation for Dan Grades to the applicant's State Board of Management who then forward the recommendation to the NGC for consideration and final ratification before approval by the JFA Board.

The NGC can advise suitable Dan Ranks for Grading Panels at the request of the State Grading Authority.

Please note that with 7th Dan applications an additional step of forwarding the successful candidate's application to the Oceania Judo Union Executive for final endorsement is required.

3.10 DAN GRADING PROCESS FOR 8TH DAN AND ABOVE

The Judo Federation of Australia will follow the IJF guidelines for promotion to 8th Dan, 9th Dan and 10th Dan.

3.11 NGC GRADING SUPPORT IN SPECIAL CIRCUMSTANCES

Where member States are unable to form a suitably qualified Grading Panel, they can request the attendance of an NGC member to support at the cost of the Member State.

In extenuating circumstances, the NGC will support Member States by organising a Dan grading opportunity at major events, for example, the National Championships; on the provision that at least 6 months' notice is given.

An example of this would be that the Member State does not have the capacity to form an appropriately credentialed panel for a Senior Dan grade applicant and they request a panel be formed for examination at a major JFA event.

This option is only possible when mutual agreements and organisation are possible between all parties and would be undertaken only once per year.

3.12 OVERSEAS NATIONALS RESIDING IN AUSTRALIA (ONRA)

ONRA who wish to have their grade recognised may do so via a ratification process, if the grade was awarded by a National Sporting Organisation recognised by the IJF.

ONRA who wish to seek Dan grade promotion in Australia must:

- 1. Complete the appropriate JFA Dan Grading Application form.
- 2. Provide proof of previous grade promotions. For example, providing copies of grading certificates or a letter from the registered NSO confirming current grade status and history.
- 3. Forwarding the appropriate fee with the application.
- 4. Clearly demonstrate that they meet time in grade requirements and the expected criteria for the grade promotion.
- 5. Provide a letter or email of clearance from their previous NSO.

If a grade has been awarded by an Organisation other than one recognised by the IJF, it will be mandatory for the judoka to sit an examination for the rank level required in the State in which he or she resides.

3.13 AUSTRALIAN NATIONALS RESIDING OVERSEAS (ANRO)

ANRO, who wish to participate in judo overseas and seek promotion, may only do so with the written permission of the NGC and their relevant State Board of Management. In doing so, judoka must have fulfilled the requirements for the grade being attempted as set out in this policy.

3.14 AUSTRALIAN NATIONALS WITH DUAL OR MULTIPLE CITIZENSHIP

Australian citizens with dual citizenship, seeking grade promotion, must do so with the mutual agreement of the NSO's involved. The Australian citizen must ask for JFA permission to grade in the other NSO and if successful undertake a JFA ratification of grade process for recognition in Australia. That process includes:

- 1. Complete the appropriate JFA Dan Grading Application form.
- Provide proof of current and previous grade promotions. For example, providing copies of grading certificates or a letter from the registered NSO confirming current grade status and history.
- 3. Forwarding the appropriate ratification of grade fee with the application.
- 4. Clearly demonstrate that they meet time in grade requirements and the expected criteria for the grade promotion.
- 5. Provide a letter or email of clearance or support from their previous NSO.

This process is put in place to ensure that "skip grading" (jumping more than one grade at a time) is avoided.

Members who present with a higher grade from a country of citizenship outside Australia without going through the above process will need to present themselves before an appropriately qualified JFA member grading panel, one grade at a time. Failure to do so will mean that in Australia, the former grade will remain and the grade attained in the other NSO will only be recognised in that country, as confirmed by the IJF.

3.15 OFFICIAL JFA DAN GRADE CERTIFICATE

The official national Dan grade certificate is to be used to validate and recognise all Dan grade promotions by Judo Federation of Australia members.

Dan grade certificates are issued by the Judo Federation of Australia national office. An IJF certificate can be purchased by Dan Grades for an additional fee.

SECTION 4 – GENERAL CONTENT FOR ALL PROMOTIONS

4.1 GENERAL

The technical standards of the Kodokan are the accepted standards of the JFA. However, the Knowledge of Judo techniques is always expanding. Examiners must be aware of these changes and not necessarily confine the examination to specific texts. An example of this is the acceptance and knowledge of Shimmeiso No Waza.

4.2 CONTEST POINTS

Contest points are mandatory for the Contest grades pathway for Senior Orange belt and above.

If the points requirement is not achieved then grading under the Knowledge category is the only alternative for Senior Kyu grades.

Alternative Senior Dan Grade pathways are outlined in Section Six (6).

There are no age restrictions apart from those detailed under minimum age and time in rank requirements.

4.3 BASIC KNOWLEDGE REQUIREMENTS

The following are considered as the basic requirements for knowledge in Judo:

It should be recognised that many throws have different forms of execution which depend on the physique of the judoka and the methods of instruction used by the judoka's coach. In general, the techniques of the Go Kyo No Waza should be examined, noting that not all techniques are contained within the Go Kyo No Waza.

4.5 OSAE KOMI WAZA (Hold Down Techniques)

Osae Komi Waza Techniques to be demonstrated are those documented by the Kodokan. The levels and standards to be achieved are consistent with the grade being attempted. Senior grades must be expected to show a higher degree of understanding when performing Osae Komi Waza.

4.6 SHIME WAZA (Strangulation Techniques)

Shime Waza techniques to be demonstrated are those documented by the Kodokan. Care must be taken to ensure that junior judoka are aware of the dangers when applying these techniques. Senior grades are expected to show a higher degree of understanding when demonstrating Shime Waza.

4.7 KANSETSU WAZA (Armlock Techniques)

Kansetsu Waza techniques to be demonstrated are those documented by the Kodokan. Care must be taken to ensure that junior judoka are aware of the dangers when applying these techniques. Senior grades are expected to show a higher degree of understanding when performing Kansetsu Waza.

4.8 KAESHI WAZA (Counter Techniques)

Kaeshi Waza techniques are expected to be demonstrated. Increasing levels of knowledge must be shown for higher grades. A list of indicative techniques for the first and second Go Kyo No Waza is shown in Section 11. Judoka should not be limited by this list. These techniques are provided to show the principles of Kaeshi Waza and many different variations are possible.

4.9 RENRAKU WAZA (Combination Techniques)

Renraku Waza techniques are expected to be demonstrated. Increasing levels of knowledge must be shown for higher grades. A list of indicative techniques for the first and second Go Kyo No Waza is shown in Section 11 Judoka should not be limited by this list. These techniques are provided to show the principles of Renraku Waza and many different variations are possible.

4.10 HAIRI KATA AND NOGARE KATA (Entry & Escape for Ground Techniques)

Hairi and Nogare Katas techniques are wide and varied in application and technique. These techniques are constantly under development and open to individual interpretation of the techniques. Examiners must be aware of these factors and should not be limited to their interpretation or assessment of these techniques.

4.11 KATA (Prearranged Forms)

A sound knowledge of Kata must be demonstrated by senior judoka. A detailed list of all Kata is documented in Section 10. Kata will often vary according to the individual judoka; however, all the principles of the relevant Kata must be performed to a high standard for judoka to pass an examination for promotion.

SECTION 5 – JUNIOR GRADING PROMOTION

5.1 JUNIOR GRADES CLASSIFICATIONS

Mon Girls/Boys	Members who turn 8 years or less in the current calendar year, with a minimum age of 5 years old
Junior Girls/Boys	Members who turn 9, 10 or 11 years old in the current calendar year
Senior Girls/Boys	Members who turn 12, 13 or 14 years old in the current calendar year

5.2 JUNIOR GRADES ELIGIBILITY

To be eligible to sit for a grade, all junior members need to be registered members of the JFA via their Member State.

The awarded grade is not recognised unless the member is JFA registered and a JFA Kyu Grade certificate holder with identifying number issued and recorded for reference, especially for competition at Club, State and National level participation.

5.3 AUTHORITY TO GRADE JUNIOR MEMBERS

The JFA recognises that the development of the organisation rests with the quality and strength of member clubs.

State Associations will grant approval to individual Black Belts (Dan Grades) to conduct Junior and Kyu Gradings under the following criteria:

• 1st Dan (Sho Dan). Up to and including 2nd Kyu Senior (Seinen).

Registered clubs together with registered senior coaches at the minimum rank of Sho Dan (1st Dan), who have the appropriate qualifications within their relevant Member State can grade to the Junior Kyu grade levels.

All gradings must adhere to the processes outlined in this document and follow the requirements as outlined in this Policy.

All coaches must maintain their continuous membership and coaching qualifications within their residing State to maintain the given authority to grade junior members.

5.4 JUNIOR GRADES OVERVIEW

- a) All new registered junior JFA members start with a white belt.
- b) Current junior member grades are to be assessed and awarded the relevant grade by club coaches as set out in the criteria of this policy.
- c) It is expected that basic Judo etiquette, bowing procedures, simple terminology, movement patterns and break falls are demonstrated, at each grade level.
- d) Grades are assessed and attained by demonstrating the set criteria for each grade over the recommended time frames of two (2) grades per year.
- e) The junior grading framework includes 20 belts to achieve from 5 years to 14 years of age.
- f) It is recommended that two (2) new throws be introduced for each grade level, covering the traditional 40 throw Go Kyo before entering the Senior Cadets age group.
- g) Traditional Kyu grade belt colours are maintained but half colour belts and black tips are included to distinguish each skill and knowledge level. For example, the progression from White belt is White/Yellow, followed by White/Yellow Black Tip, then Yellow belt.

- h) New beginner junior members progress from the beginning however some older new junior members may be assessed to progress at varying points of the grading syllabus. For example, a 13-year-old who is keen and striving to compete may grade at Yellow, then, Orange provided that the knowledge and skills expected are clearly demonstrated. It is expected that coaches use their experience and common sense in this area.
- Strangles and choking techniques are introduced to junior members so that knowledge of their application and defence is known prior to entering Senior Cadet Divisions where strangles and chokes are permitted in competition.
- j) Arm locks are introduced to junior members so that knowledge of their application and defence is known prior to entering Senior Cadet Divisions where arm locks are permitted in competition.
- k) The introduction of Kata complements the ongoing development of Kata competitions through to National level and the skill set required for potential Sho Dan grading at an earlier age.
- I) When progressing to the Cadet Division, full colour belts up to Green belt will be maintained. For example, Yellow, Orange or Green. Half belt colours will revert to the lower full colour belt. For example, Yellow/Orange belt will revert to Yellow and Orange/Green belt will revert to Orange.
- m) For junior grades above Green belt, the starting Cadet grade will be Green Belt. This is to allow participation in development Kyu Grade Competitions and allow time for the safe introduction and development of the skills and knowledge required for senior member grades, particularly Arm locks, Strangles and Kata.
- n) The awarding of Junior Grades will include the belt colour and junior category on the authorized JFA certificate, for example Mon Yellow or Senior Blue/Brown.
- o) Certificates are available for purchase from the JFA by registered States. A register will be maintained for JFA and Member records by each State for Kyu Grades.

All coaches must maintain their continuous membership and coaching qualifications within their residing State to maintain the given authority to grade senior members.

6.3 SENIOR CADET GRADES OVERVIEW

- a) Cadets are defined as senior members of the JFA, aligning with the IJF definition of members who turn 15, 16 or 17 years old in the current calendar year.
- b) Cadet Kyu Grades are awarded as per the senior grades policy, with full belt colours Yellow, Orange, Green, Blue and Brown belts.
- c) Juniors progressing to the Senior Cadet division will start at a maximum grade of GREEN BELT. This is to allow participation in development Kyu Grade Competitions and allow time for the safe introduction and development of the skills and knowledge required for senior member grades and participation, particularly arm locks, strangles and kata.
- d) For junior grades above Green belt, for example Green/Blue, Blue, Blue/Brown or Brown etc. the starting Cadet grade will be Green Belt. - i) Cadets may achieve a Sho Dan (1st Dan) grade promotion in exceptional circumstances. This will be managed and deliberated by the NGC under a Contest pathway. Member states will need to forward to the NGC a fully completed and signed Dan grade application form in each case. Contest points gained at Junior Women/Men and Senior Men/Women divisions only, will count.

The minimum time in grade as a 1st Kyu (Brown belt) is six (6) months. There will be an expectation that members have knowledge and be able to demonstrate the Nage-No-Kata, the Gokyo, Shime and Kansetsu Waza as per a senior Sho Dan promotion. Exceptional circumstance examples include, an outstanding senior competition record at national level and/or selection in a Cadet World Championship team, noting that time in grade and Sho Dan grade criteria need to be met and demonstrated before an appropriately qualified, NGC approved, state grading panel.

j) When Cadets progress in to the Junior Women and Men age group they maintain their current grade.

7.2 METHODS OF OBTAINING A GRADE

There are four (4) methods of obtaining promotion to Dan rank within the sport of Judo. They are as follows:

- a) Contest Points and Knowledge
- b) Knowledge of the Art with Service to the Sport of Judo
- c) Knowledge of the Art of Judo
- d) Batsugun

Generally, there is an expectation that judoka will grade up to San Dan (3rd) via the contest points and knowledge pathway. Judoka who undertake this pathway may apply (when eligible) for promotion to the grades of Roku Dan and above. Contest points and knowledge will be the normal ways in which judoka are able to seek promotion through the grading system.

Service points in the areas of Administration, Coaching, Refereeing and Team Management are awarded annually to recognise a member's active contribution and further involvement in the sport of Judo. The methods and allocation of points to be recognised for Dan grade promotion are shown in the requirements for each Dan Grade. Generally, members seeking promotion via the Knowledge and Service only pathway are eligible to be graded to a maximum of Go Dan (5th).

Any member requesting an exemption from the practical components of a grade examination must first seek approval from the relevant State Grading Authority and NGC. The relevant State Grading Authority and NGC will then decide whether or not the judoka is eligible to be considered for promotion.

By setting these parameters, the NGC together with the member States, will be able to maintain the integrity of the Dan grading process on behalf of the JFA.

7.3 TIME IN RANK REQUIREMENTS

Minimum time in Rank is that period in which the Judoka must have maintained the current grade worn before being able to be promoted to the next grade.

The applicant must have a cumulative total of financial years in grade equal to the minimum time in grade required for promotion. They must be able to show continuous financial membership within their State.

SHO DAN TO GO DAN - TIME IN RANK REQUIREMENTS				
Grade		Minimum Time in Rank		
		a) Contest Points and Knowledge	b) Knowledge and Service	c) Knowledge to Art of Judo
1 st Dan	Sho Dan	1 Year = 150 points 2 Years = 100 points	3 years	5 years
2 nd Dan	Ni Dan	2 years = 150 points 3 years = 100 points	4 years	6 years
3 rd Dan	San Dan	3 years	5 years	
4 th Dan	Yon Dan	4 years	6 years	
5 th Dan	Go Dan	5 years		

Note 1: Promotion to Roku Dan and above please refer to Section 8 for detailed explanation of the designated pathways for Master Dan Grade promotion.

Note 2: Promotion to 8th Dan, 9th Dan and 10th Dan will follow the IJF Guidelines.

7.4 OBTAINING A GRADE - CONTEST POINTS AND KNOWLEDGE

Points are awarded for each bout contested and won in open, JFA sanctioned events. The points allocated to judoka in competition are detailed in the table, Contest Points and Time Requirements in section 7.13.

Points criteria for Dan ranks are outlined in Section 8.

Special note: If a judoka retires from senior competition with competition points less than required for their next grade, those competition points may be added to the 7.5 Knowledge and Service pathway. For example, a judoka retires with 50 competition points at San Dan (3rd Dan) level. Under the Knowledge with Service pathway, the judoka has a time in grade of 6 years with a requirement of 150 points. The 50 points gained in competition may be added so that only an additional 100 service points are needed to eligible for Yon Dan (4thDan) application.

7.5 OBTAINING A GRADE – KNOWLEDGE AND SERVICE TO THE ART

Judoka are able to gain promotion via the Knowledge of the Art with Service to the Sport of Judo, if they are unable to gain points through competition. This method of attaining promotion requires the Judoka to show dedication through active service via demonstration of techniques, coaching, refereeing, administration, and management appointments.

Judoka who wish to gain promotion on this path must also be able to demonstrate significant knowledge on a broad range of aspects of the sport and art of Judo. This will include theory, practical, theoretical teaching of techniques, demonstration of the required Katas, and refereeing theory.

Judoka who are graded via the knowledge and service to the sport of Judo will only be able to progress to the maximum rank of **Go Dan (5**th **Dan).**

7.6 OBTAINING A GRADE - KNOWLEDGE OF THE ART OF JUDO

This method of obtaining promotion is the least common form of grading. Judoka must have a legitimate reason for not being able to participate in competitions or being of service to the sport of Judo.

Such reasons must accompany their completed application for a grading and be forwarded to the relevant State Board of management and then after recommendation to the NGC.

Judoka seeking Dan grade promotion via the Knowledge only pathway will only be eligible to obtain the maximum rank of **San Dan** (3rd **Dan**).

If the Judoka is eligible for an examination they must display significant knowledge of a broad range of aspects of the sport and the art of Judo. This will include Refereeing theory; practical and theoretical teaching of techniques, demonstration of the relevant kata(s) and other grading requirements outlined in this policy relevant to the grade the candidate is seeking.

Any member requesting an exemption from the practical components of a grading examination must first seek approval from the relevant State Grading Authority and NGC.

The State Grading Authority and NGC will then decide whether or not the Judoka is eligible to be considered for promotion.

7.7 OBTAINING A GRADE by BATSUGUN

Batsugun promotion may be attained by either:

a) Tournament Batsugun

Which is five (5) consecutive wins over the entire course of an approved JFA tournament against different opponents of the same grade or higher. The wins must all be by Ippon in the one division.

b) Kohaku Kachi Nun Shiai

For promotion to 1st Dan: Minimum of six (6), 1st Kyu competitors.

The judoka are arranged in order of promotion points and weight and the least qualified judoka competes first, against each of the others in turn, for as long as that judoka continues to defeat them by Ippon.

Contest time is five (5) minutes per match.

At any time when the judoka undertaking a Batsugun does not win by Ippon, the Batsugun ends and that judoka return to the lineup. Each of the six judoka is allowed their own Batsugun.

The recognition of a Batsugun Grade involves the same application and approval process outlined in this policy, namely, having the appropriate time in grade eligibility. This avenue of promotion is only available to Ik Kyu (Brown belt) seeking promotion to Sho Dan (1^{st Dan}) and Sho Dan seeking promotion to Ni Dan (2nd Dan).

7.8 MASTER GRADES

The promotion to the Master Grades of 6th Dan and above are awarded on the basis of outstanding achievement and service at National and International levels of activity during the candidate's Judo career.

Members seeking promotion to Master Grades 6th Dan and above can only do so if they have obtained a minimum **JFA Contest record up to and including San Dan (3^{rd Dan}).**

Nomination for promotion to these grades will be via the Master Dan Grade Application Form together with a resume of the candidate's judo career. Candidates are required to provide full authentication of positions held or achievements in support of their application for examination / promotion.

In considering nominated candidates for promotion, the profile record of the candidate shall be examined before any recommendation for examination or promotion is granted. The National Grading Committee may, at its sole discretion, require the nominated candidate to undertake special examination in Judo technique, Kata, Judo history, rules of competition and grading requirements. Current contest ability is not a pre-requisite for promotion in this category.

The following must be demonstrated:

- a) Proof of active and continuous membership for the time in rank period required.
- b) Have obtained a JFA grade of San Dan (3rd Dan) through competition points.
- c) At least 20 years' active membership of the JFA.
- d) At least 40 years of age

There are four (4) designated pathways for a Master Dan Grade Promotion.

A Class – Olympic Level

B Class - International Level

C Class - Continental Union Level

D Class - National Level

Promotion to 7th Dan requires the approval of Oceania Judo Union.

Promotion to 8th, 9th and 10th Dan will follow the International Judo Federation Guidelines.

7.9 VETERANS COMPETITION PATHWAY

This method of promotion allows for Judoka participating in recognised Veteran's competitions to gain points for Dan grade promotion.

Time in rank, financial currency and active participation via National, Oceania and International Judo Federation Veteran's competitions are the key criteria assessed to be eligible for promotion via this pathway, with specific conditions listed below:

- a) The points are gained in authorised JFA Nationals, OJU Championships and IJF Tournaments.
- b) The applicant can only claim points for wins as per the table below.
- c) The applicant can only claim points from the same opponent **once** per tournament
- d) It is up to the applicant to provide proof of points claimed.
- e) Promotion can only be used under the "Knowledge and Service" category.
- f) Promotion via this pathway is limited to San Dan (3rd).

- c) Two (2) Katas can be claimed for points. The first is the Kata that the candidate requires for their next Dan grade promotion. The second can be chosen from any higher Dan grade Kata.
- d) Promotion via this pathway can only be under the "Knowledge and Service" category.
- e) It is up to the applicant to provide proof of points claimed.

SECTION 9 - SUMMARY OF MAJOR TECHNIQUES

9.1 GO KYO NO WAZA (Traditional Throwing Techniques)

The Go Kyo No Waza is divided into five groups of eight throws. Techniques should always be executed with more emphasis on control, style and finish, rather than absolute speed. Apart from the requirement for speed, the Go Kyo No Waza should be displayed with all of the requirements that would constitute the awarding of an Ippon during competition.

Judoka being examined for more senior grades should be able to perform Go Kyo No Waza techniques whilst on the move, so as to demonstrate a greater understanding of the body dynamics and requirements of Kuzushi (breaking balance). Greater knowledge of variations to techniques is also expected (all methods of promotion) and Judoka should also be able to explain and demonstrate the practical requirements to instruct on the teaching elements of techniques (mandatory for Knowledge Only Examinees).

9.2 SHIMMEISHO NO WAZA (Additional Throwing Techniques)

The Shimmeisho No Waza is made up of an additional 19 throws recognised by the Kodokan. These throws are in addition to the variations of those throws currently recognised within the Go - Kyo No Waza. For example, Seoi Nage (1st Go Kyo) can be executed in the forms of either Morote Seoi Nage or Ippon Seoi Nage. Both forms of the throw are legitimate within the Go Kyo No Waza as variations of Seoi Nage and do not constitute a separate form of throw within the Shimmeisho No Waza. Execution of the techniques within the Shimmeisho No Waza during the examination should be conducted in the same manner as the Go Kyo No Waza techniques.

All Judoka being examined for Dan grades should be able to demonstrate techniques from the Shimmeisho No Waza, which is shown below:

9.3 OSAE KOMI WAZA (Hold Down Techniques)

Osae Komi Waza utilises many different methods of restraining an opponent on the ground. Each technique executed during examination should exemplify the particular attributes of the technique. Of most importance is the maintenance of control of an opponent on entry into and during the execution of the technique, to prevent the opponent from escaping.

Judoka being examined for more senior grades should be able to perform these techniques and maintain control over the opponent whilst transitioning from one hold down technique to another. To facilitate this Osae Komi Waza is written in a progressive form, from Kesa Gatame (Scarf Hold) through all techniques around the body in a clockwise direction concluding with Kata Gatame.

9.4 SHIME WAZA (Strangulation Techniques)

Shime Waza, as previously described is dangerous and potentially fatal. All Judoka must ensure that techniques are performed with care and with due regard to their grading partner. Unlike competition, the performance of Shime Waza under grading conditions is designed to examine the Judoka's technical knowledge and expertise of the techniques, for without these; application of Shime Waza in competition will be invariably poor or ineffectual.

Judoka being examined for more senior grades should be prepared to explain the differences between Shime Waza applied as a strangle and that which is applied as a choke. In addition, Dan grades examinations may include the requirements to explain the basic first aid principles to revive Judoka, who may have succumbed to the effects of Shime Waza.

Shime Waza Techniques are detailed below:

Technique	English Translation
Nami Juji Jime	Normal Cross Lock
Gyaku Juji Jime	Reverse Cross Lock

9.5 KANSETSU WAZA (Armlock Techniques)

Kansetsu Waza, as previously described is dangerous and can result in serious injury to Judoka. All judoka must ensure that techniques are performed with care and with due regard to their grading partner. Unlike competition, the performance of Kansetsu Waza under grading conditions is designed to examine the judoka's technical knowledge and expertise of the techniques, for without these; application of Kansetsu Waza in competition will invariably be poor or ineffectual.

Judoka being examined for more senior grades should be prepared to demonstrate alternative methods of execution for Kansetsu Waza.

Kansetsu Waza techniques are detailed below:

Othen Gatame	Lateral Turning Entangled Armlock

9.6 KAESHI WAZA (Counter Techniques)

Like Renraku Waza, Kaeshi Waza is fundamental to a judoka's success in competition. It should be taught to students as early as possible.

Judoka undertaking examination for senior promotion must be able to show the fundamentals of Kaeshi Waza. As with the performance of Nage Waza, the execution of Kaeshi Waza should concentrate on control, technique and finish, rather than absolute speed. In addition to these aspects of the execution, judoka must also display flow and logical progression from one technique to the next. That is, Kaeshi Waza must be based on the premise of Uke's preliminary technique and subsequent weaknesses to a counter technique.

The choice of counter throw to a preliminary throw will vary, depending upon the individual stature and physique of the judoka. Although not exhaustive and by no means the technically perfect solution, shown below is a list of the Kaeshi Waza for the throws of the 1st and 2nd Kyo.

9.7 RENRAKU WAZA (Combination Techniques)

Renraku or Renraku Waza is fundamental to a judoka's success in competition. It should be taught to students as early as possible.

Judoka undertaking examination for senior promotion must be able to show the fundamentals of Renraku Waza. As with the performance of Nage Waza, the execution of Renraku Waza should concentrate on control, technique and finish, rather than absolute speed. In addition to these aspects of the execution, judoka must also display flow and logical progression from one technique to the next. That is, Renraku Waza must be based on the premise of Uke's reaction to the preliminary technique and subsequent weaknesses to another technique as a result of that action.

The choice of follow up throw from a preliminary throw will vary, depending upon the individual stature and physique of the judoka. Although not exhaustive and by no means the technically perfect solution, shown below is a list of the Renraku Waza for the throws of the 1st and 2nd Kyo.

Katame Waza is comprised of the three groups of techniques, namely, Osae Waza (Holding Techniques), Shime Waza (Strangulation Techniques) and Kansetsu Waza (Armlock Techniques – Elbow Joint Only).

OSAE KOMI WAZA (Hold Down Techniques)

Katame No Kata is formulated with the five representative techniques in each of the previously mentioned three groups. You must aim to control your opponent's movements and anticipate the moves your opponent may make for escaping or countering the holding technique. For this purpose, you must keep your body as low as possible, control your opponent's head at all times so as to prevent them from using their head to escape from your holding technique. Always maintain contact with your opponent to control their movements using the strength of your whole body and anticipate the movements of your opponent.

OSAE WAZA	
Kesa Gatame	Scarf Hold
Kata Gatame	Shoulder Hold
Kami Shiho Gatame	Locking of the Upper Four Quarters
Yoko Shiho Gatame	Locking of the Side Four quarters
Kuzure Kami Shiho Gatame	Modified Locking of the Upper Four Quarters

SHIME WAZA (Strangulation Techniques)

In performing Shime Waza it is important to apply pressure to your opponent's neck, on either or both of the carotid arteries, by placing the edge of your arm, thumb, little finger or edge of the outer wrist. It is necessary to control the opponent's body before applying the Shime Waza techniques. For Shime Waza to be effective, it is necessary to pull your opponent's neck toward your chest whilst applying the technique.

SHIME WAZA	
Kata Juji Jime	Single Cross Choke or Lock
Hadaka Jime	Naked Neck Choke or Lock
Okuri Eri Jime	Sliding Lapel Choke or Lock
Kata Ha Jime	Single Wing Choke or Lock
Gyaku Jiji Jime	Reverse Cross Choke or Lock

KANSETSU WAZA (Armlock Techniques)

In performing Kansetsu Waza, it is important to apply the principle of leverage. During the execution of Kansetsu Waza, the occurrence of injury is highly likely unless the techniques are applied correctly. At the same time, it is imperative that the techniques are applied with care. The pressure applied during the execution of Kansetsu Waza techniques, particularly arm bars, must be released immediately when your opponent submits.

Koshiki No Kata represents the ancient forms of Judo, which were derived from Ju-jitsu. It was included to ensure that preservation of the original antique forms of Judo, which represent the principles, and techniques of Kodokan Judo.

This Kata is broken into two sets called Omote, meaning "obverse" (Set 1), and URA, meaning, "Reverse" (Set 2). These forms are divided into 21 techniques, 14 in Set 1 and 7 in Set 2. Since these forms of Judo were intended for the Kumiuchi (Armored Warriors of the Feudal Age) it is essential to perform the movements imagining that you are clad in heavy armor. As a result this Kata is performed slowly.

10.7 ITSUTSU NO KATA (Prearranged Forms of Five)

This Kata is named simply because the Kata consists of five techniques. Dr Jigoro Kano intended to name the technique of this Kata but passed away before being able to do so. As such the techniques of the Kata are simply called The First Form through to the Fifth Form, which are intended to explain the principle of maximum efficiency and to represent the movements of the universe through these Judo techniques.

The First Form

This form simply resembles the Kuzushi exercise performed by all judoka when learning the forms of balance. Judoka stand facing one another. Tori place a hand on Uke's chest and pushes to the rear, resulting in Uke falling into a back-break fall.

The Second Form

This is a technique, which resembles Uki - Otoshi. Uke commences the technique from one knee rising to strike Tori with a bladed hand to the chest. Tori moves forward, drops to one knee, grips the striking hand in the same motion of blocking the strike and executes an Uki - Otoshi.

The Third Form

This technique is finished with a form of Yoko-Wakare. Both judoka commence facing apart on their knees. Both judoka raise and turn anti-clockwise to face one another with arms outstretched. Tori grasp the extended arms of Uke and perform a version of Yoko-Wakare.

The Fourth Form

This technique is a form of reward strike. Details of this technique should be sought from the Illustrated Kodokan Judo or the Kodokan digital video series.

The Fifth Form

This technique is detailed in execution and judoka should refer to the Illustrated Kodokan Judo or the Kodokan digital video series to gain knowledge of its performance.
