NOTICE TO COMPETITORS
NUMBER 1

The Laser class rules specifically ban the use of any electronic equipment other than a compass and timing devices. No timing device or electronic compass which can transmit, receive, calculate or store information on wind speed or direction, boat speed or position is allowed.

For this event the following exceptions to the Class Rules will apply.

The Organising Authority has agreed to assist the School of Human Sciences of the University of Western Australia with its research to quantify the workload demands of Olympic class sailing regattas. For this purpose selected sailors who have volunteered will be required to wear supplied heart rate monitors and GPS trackers to record data. The data will be stored for later analysis by the researchers.

“Chest band heart rate monitors which have that function alone and do not include external display or GPS capability are allowed to be used.”
