

SNOW AUSTRALIA PARK AND PIPE ATHLETE PATHWAY

A PATHWAY FOR ALL

Snowsports is a sport for all, whether it's participating recreationally with family and friends, or competitively in snowsports event. With approximately 1.2 million Australians participating in various forms of skiing and snowboarding, it is one of Australia's largest and most popular participation sports.

Whatever the motivation for participating in Snowsports, Snow Australia is committed to providing a clear "Pathways to High Performance" strategy, to educate and inform the Snowsports Community as to the stages of athletic development

To assist with this important initiative, Snow Australia has developed discipline specific Snow Australia Pathway 'blueprints', informed by the Australian Institute of Sport's (AIS) FTEM (Foundation, Talent, Elite and Mastery) Athlete framework. The blueprint provides an evidence-based and practicable approach for supporting the 'whole of sport' pathway continuum and the three key outcomes of sport being:

- Active Lifestyle,
- Sports Participation;
- Sporting Excellence.

Each stage of the Snow Australia Athlete Pathway provides an overview of athlete preparation, programs, on and off-snow development, equipment, competition, leadership and support. It is designed to inform our community about the Pathways to High Performance, and to support our Program Providers to deliver long-term athlete development opportunities.

This document supports materials available on the Snow Australia website which is an important conduit for the latest information on the Snow Australia Athlete Pathway.

I encourage anyone interested in the snowsports athlete journey to read and become familiar with this important resource.

Michael Kennedy
Snow Australia CEO

WHAT IS FTEM?

Sports development begins early in life with the acquisition of movement skills through to lifelong engagement into senior levels. The sporting journey across the lifespan includes various development stages from early participation, to the pre-elite, and for a lucky few, high performance opportunities. Each stage is unique and is an important stepping stone for those athletes hoping to succeed in High Performance Sport.

The AIS originally developed the FTEM framework to directly support these key outcomes of sport participation being; Active Lifestyle, Sports Participation, and Sporting Excellence. The FTEM model is a fully integrated, evidence-based framework representing the **F**oundation, **T**alent, **E**lite and **M**astery of the 'whole of sport' pathway continuum. It categorises key features of each stage of an athlete's journey and provides a practical method to assist sport and athlete stakeholders to maximise and manage athlete development. For more information please visit the Sports Australia website:

<https://www.sportaus.gov.au/ais/ftem>

WHY DO WE NEED THE FTEM MODEL?

THE ATHLETE PATHWAY IS AN INCLUSIVE AND PROGRESSIVE ATHLETIC DEVELOPMENTAL FRAMEWORK WHICH ALLOWS SNOW AUSTRALIA TO:

- 1** Provides visibility and clarity of pathway opportunities for ALL stakeholders including athletes and their parents,
- 2** Be a means to recognise and acknowledge key partnerships, programs and support,
- 3** Provide a practical method to assist our sporting stakeholders to construct a more functional and aligned athlete and sport development system, which in turn directly aligns with the Snow Australia Strategic Plan,
- 4** Develop evidence-based programs and strategies, including talent identification, confirmation, development and transition;
- 5** Provides a platform to easily identify and support potential talent to achieve sustained High Performance success.

THE SNOW AUSTRALIA ATHLETE PATHWAY FRAMEWORK ALLOWS OUR SNOWSPORTS COMMUNITY TO:

- 1** Understand the correlation and requirements of each of the stages of athletic development within the participation and performance pathways,
- 2** Acknowledge the critical importance of the acquisition and refinement of fundamental movement skills to lifelong sports participation and high performance athlete development,
- 3** Allow all athletes to reach their optimal performance level;
- 4** Acquire the skills to encourage lifelong engagement and participation within Snowsports.

UNDERSTANDING THE FTEM STAGES

The FTEM framework consists of 3 macro stages of the skill and performance development of sporting participants which are further differentiated into 10 micro stages.

These stages and micro stages include **Foundations (F1, F2 and F3); Talent (T1, T2, T3 and T4); Elite (E1 and E2); and Mastery (M).**

Foundations (F1, F2 and F3) contribute to and underpin our Participation Pathway. These progressive and dedicated levels are pivotal to acquiring and refining the fundamental movement skills and early physical literacy required for athletic development.

WITHIN THESE LEVELS, THE FOLLOWING ASPECTS ARE STRONGLY ADVOCATED:

- 1** Early engagement in age and skill appropriate introductions to snowsports,
- 2** The right fit of equipment,
- 3** The importance of freeski activities (unorganised Free play),
- 4** To assist with mastering skills, sampling across different sports and within snow sports, and regular coaching via our committed network of snowsports schools and clubs (F2-F3).

The Talent (T1, T2, T3 and T4); Elite (E1 and E2); and Mastery (M) span and support the pathways to High Performance. Supported by a best-practice, inclusive and holistic approach, the future talent potential of a pre-elite athlete is identified, confirmed, developed through effective programming and competitive opportunity and transitioned to the senior elite level.

At the pinnacle of the sport pathway, the Elite and Mastery levels, athletes enter and perform on the world stage and are supported through a dedicated and individualised approach including committed preparation, camps, sport science/sports medicine and quality coaching to give them the very best chance of realising their podium potential!

LEARNING AND ACQUIRING THE BASIC FOUNDATIONS OF SNOWSPORTS THROUGH OFF-SNOW FUNDAMENTAL MOVEMENT SKILLS, FREERIDE AND SNOW PLAY

F₁

FOUNDATION

LEARNING AND ACQUIRING THE BASIC FOUNDATIONS OF SNOWSPORTS THROUGH OFF-SNOW FUNDAMENTAL MOVEMENT SKILLS, FREERIDE AND SNOW PLAY

F

1

PARTICIPANT

Enjoying first snow experience. Learning basic fundamental movement skills through informal snowsports activities and sport sampling opportunities.

PROGRAMS

Free ride and snow play in Resort and snow environments.

COMPETITION

Non-competitive.

ON-SNOW SKILL DEVELOPMENT

Learning the fundamentals. Participants are introduced to the fundamental skills of skiing and snowboarding including: balance, edging, steering and timing. Finding enjoyment in regular free-ride activity, snow play and sampling other snowsports disciplines.

OFF-SNOW SKILL DEVELOPMENT

Learning fundamental movement skills including body balance, control, locomotors and object control by developing running, jumping, throwing skills. Participating in sport sampling opportunities including skateboarding, gymnastics and acrobatics.

LEADERSHIP

Parents, Family and Friends.

SUPPORT

Providing opportunities to experience success through movement competence with the most fundamental of movement and sport-related tasks, and positively reinforce these behaviours.

EQUIPMENT

Snowboard and helmet. Seeking professional guidance when ensuring right fit and match of equipment to age and development.

PARTICIPANT PREPARATION

Participants begin to develop fundamental skills and confidence to inspire passion for the sport. Make goals a daily game making it fun, skill based and tangible.

FOUNDATION

INTRODUCTION TO SNOWSPORTS THROUGH DEVELOPMENTALLY-APPROPRIATE PROGRAMS WITHIN SCHOOLS AND CLUBS, FREERIDE AND SPORT SAMPLING

F

2

PARTICIPANT

Building on F1, early acquisition of the fundamental skills of skiing and snowboarding, by participating in structured, age-appropriate Snowsports Schools, Clubs, and Snow Australia Pathway programs. Finding enjoyment in extensive free-ride activity, developing physical literacy, and participating in sport sampling opportunities.

PROGRAMS

Participating in structured lessons, including Instructor lessons, private camps, weekend or holiday programs. Snow Australia off-snow activities when available.

COMPETITION

Club, Interscholls Championships and Snow Australia Park and Pipe Series Events.

ON-SNOW SKILL DEVELOPMENT

Developing the fundamental skills including: balance, edging, steering and timing. Finding enjoyment in regular free-ride activity, snow play and sampling other snowsports disciplines.

OFF-SNOW SKILL DEVELOPMENT

Emphasis on physical literacy, sport specific movement exercises, flexibility, body awareness, coordination, including acrobatic and gymnastic skills. Participating in sport sampling opportunities.

LEADERSHIP

Snow Australia, Clubs, Coaches and Ski Instructors. Snow Australia national direction. Introducing participants to snowsports and differing disciplines and utilising an engaging, participant-centred approach informed by best practice skill acquisition to teaching snowsport skills.

SUPPORT

Instructors, Coaches, Schools, Parents and Friends. Provision of accessible and engaging age and developmentally appropriate introductory snow sport programs. Supporting sporting efforts and role modelling positive sportsmanship behaviour. Showing respect to leadership personal, instructors, coaches and officials.

EQUIPMENT

Snowboard and helmet. Seeking professional guidance when ensuring right fit and match of equipment to age and development.

PARTICIPANT PREPARATION

Participants are given a certain amount of autonomy in training and competition. Introduce goal setting and use simple self-talk cue words to reinforce task-oriented behaviours. Achieving personal goals is more important than winning in competition. Understand the importance of health and fitness and how it applies to sport and wellbeing. Learning to take responsibility for preparing for training and competition days.

FOUNDATION

REGULAR COACHING, PRACTICING AND COMPETING THROUGH CLUBS, SNOW AUSTRALIA PROGRAMS AND FIS EVENTS. CONTINUED ENJOYMENT IN FREERIDE ACTIVITY AND COMPETING IN PARTICIPATION EVENTS ACROSS THE LIFESPAN

F₃

PARTICIPANT

Further refining their on-snow skills with an emphasis on the process and holistic skill development (physical, mental, acrobatic, snow skills and technical performance) in early competition and practice. A focus on learning what it takes to be a Snowsports athlete rather than solely competitive results. Committed to regular coaching via Clubs and Snow Australia Pathway Programs. Finding enjoyment in extensive freeride activities to self-challenge and extend all skills, refining physical literacy, and participating in sport sampling opportunities.

PROGRAMS

Committed to a part-time or full-time Club program. Snow Australia National Direction with on-snow and off-snow programs. Attending talent ID and upskilling initiatives such as Snow Australia Futures and other off-snow activities when available.

COMPETITION

Participation events across the lifespan, including Club, Interschools, Masters and Resort events. Performance events, including Snow Australia Park & Pipe Series Events, ANC events and FIS events.

EQUIPMENT

For FIS/ANC events, all equipment should adhere to FIS specifications. For participation events, a set of snowboard and helmet, seeking professional guidance when ensuring right fit and match of equipment to age and development.

ON-SNOW SKILL DEVELOPMENT

Overall skill development focussing on sport-specific skills. Continue refining fundamental skills covering all aspects and disciplines. Regular free-ride activity and sampling other snowsports disciplines.

OFF-SNOW SKILL DEVELOPMENT

Continued emphasis on overall physical literacy extending movement proficiency under variable and progressively challenging conditions. Non sport specific movement exercises to promote versatility and balance, coordination and control, neuro-muscular flexibility, body and kinaesthetic awareness. Component movements are trained regularly on a trampoline. Cross training in sports that are similar to snowsports such as rollerblading, acrobatics, skate boarding, surfing, wake boarding and water skiing, as well as participating in team sports.

LEADERSHIP

Snow Australia, Clubs and Coaches. Snow Australia national direction. Coach direction for athlete development. Coach-athlete relationships are built through effective communication, trust, and respect and the development of an athlete's autonomy and self regulation.

SUPPORT

Instructors, Coaches, Schools, Parents and Friends. Provision of accessible and engaging age and developmentally appropriate introductory snow sport programs. Supporting sporting efforts and role modelling positive sportsmanship behaviour. Showing respect to leadership personal, instructors, coaches and officials.

ATHLETE PREPARATION

Guidance on utilising self-regulatory skills and strategies linked by regular self-reflection. Includes strong self-awareness, management and organisational skills. S.M.A.R.T (Specific Measurable Action Realistic Timely) Goal setting with input from athletes and guided by coaches and parents. Goals are to be set weekly and seasonally, starting simple, then increasing difficulty. Practicing effective time management skills to balance sport, school, and workload. Communicate effectively with leadership and support groups. Learn and practice positive self-talk, arousal/anxiety and breathing control within competitive settings. Instil a strong work ethic, and reward perseverance. Implement imagery into sessions to support skill development and aid confidence and preparation by watching themselves execute the skill utilising different perspectives within their minds eye until they achieve a positive outcome. Keep a self-reflection journal and practice self regulation after training and competition and seek and experiment with solutions to fill competency gaps.

Acquire Sporting SMARTS – General principles for staying adequately hydrated, good nutritional habits, sleep, recovery and travel strategies, injury prevention, early strength and conditioning principles, equipment preparation and maintenance etc.

POTENTIAL IDENTIFIED

PERFORMANCE POTENTIAL IDENTIFIED THROUGH INITIAL DEMONSTRATION OF SKILLS

T

1

PRE-ELITE ATHLETE

Initial demonstration of High Performance potential. Aware of training environment and involved in planning and preparation and taking ownership of own development. Moving into specific discipline, but still have a focus on snow skills and technical development across all disciplines - Half Pipe (HP)/Slopestyle (SS)/Big Air (BA).

PROGRAMS

Committed to a full-time Club program. Snow Australia National Direction with on/off-snow programs including skill assessment programs. Snow Australia off-snow activities when available.

COMPETITION

Performing consistently in National level events, Interscholars, AUS Park & Pipe Series Events, ANC events, National and International events such as FIS, WRT qualifiers, and USASA events. Targeted selection into International level events Junior World Championships, World Rookie Tour Finals for early exposure.

ON-SNOW SKILL DEVELOPMENT

Stabilisation of fundamental skills learnt during foundation stages (F1-F3) in training and competition. Biomechanically sound in all weather and snow conditions and on all terrain. Demonstrate specific technical skills relevant to discipline. Regular free-ride activity.

OFF-SNOW SKILL DEVELOPMENT

Demonstrating talent potential through dedicated Talent Identification (TID) assessments including coach's eye that consider an athlete's holistic skills which are informed by the required athlete profile and are considerate of training age and maturational status. Cross training in compatible sports to extend snow sport skills. Comfortable and confident on the trampoline to combine and progress components into more difficult skill progressions. Achieving a good level of physical preparation to enhance on snow opportunities.

LEADERSHIP

Snow Australia, Clubs and Coaches. Snow Australia national direction. Coach direction for athlete development. Coach-athlete relationships are built through effective communication, trust, and respect and the progression of an athlete's autonomy and self regulation.

SUPPORT

Clubs, Coaches and Parents. Parents to positively support athletes sporting efforts and role model by demonstrating good sportsmanship and respect to leadership personal, coaches and officials. Allowing coaches to adopt a best practice and holistic approach incorporating effective skill acquisition to develop athletes.

EQUIPMENT

All equipment should adhere to FIS specifications. Athlete develops equipment knowledge and maintenance, seeking professional guidance to ensure right fit and match of equipment.

ATHLETE PREPARATION

Holistic preparation considerate of required complement of technical, tactical, physical, physiological and psychological skills. Practicing executing the full skill complement under varied environmental and snow conditions and all terrain. Complete and adhere to Snow Australia/Club Individual Performance Plan (IPP) to achieve short, mid and long-term goals. Goals should still be primarily focused on process and improvement of skills.

EMERGING

PERFORMANCE POTENTIAL IS VERIFIED THROUGH HOLISTIC ATHLETE PROFILING SUPPORTED BY INDIVIDUAL PERFORMANCE PLANS AND BENCHMARKING

T

2

PRE-ELITE ATHLETE

Verifying their future High Performance potential by consistently displaying their full complement of athlete profile and competencies (physical, mental, acrobatic, snow skills and technical performance). Focusing on HP or SS/BA specifically. Other key attributes include a strong aptitude for learning and consolidating new skills, commitment, motivation, "coachability", positive psychology, self-management and self-regulation. Committed to year-round International training and competition as informed by Snow Australia/Club IPP's.

PROGRAMS

A blend of AUS Park & Pipe national direction with on/off-snow programs and individual activity. Committed to a full-time seasonal club program. Selection into scholarships such as Emerging Talent Program (ETP), NSWIS or VIS. Snow Australia off-snow activities when available.

COMPETITION

Podiuming consistently in National level events, AUS Park & Pipe Series Events, ANC events, National and International events such as FIS, WRT qualifiers, and USASA events. Targeted selection into International level events NorArms, Europa Cups, Junior World Championships, World Rookie Tour Finals for early exposure.

ON-SNOW SKILL DEVELOPMENT

Snow Australia/Club IPP driven, benchmarking. Identifies on-snow strengths and weaknesses, and works to a plan designed to address needs, maximising strengths and minimising weaknesses. Working towards developing skills in training and competition environments. Regular freeride activity to further challenge skills.

OFF-SNOW SKILL DEVELOPMENT

Talent confirmation strategies including dedicated camps and competition. Holistic coach's eye assessments as well as valid and reliable TID assessments utilising age and developmentally appropriate benchmarks that are cognisant of an athlete's maturational status. Cross training in compatible sports to further extend snow sport skills

LEADERSHIP

Snow Australia, Clubs and Coaches. Snow Australia national direction. Coach direction for athlete development. Coach-athlete relationships are built through effective communication, trust, and respect and the refinement of an athlete's autonomy and self regulation.

SUPPORT

Clubs, Coaches and Parents. Parents to positively support athletes sporting efforts and role model by demonstrating good sportsmanship and respect to leadership personal, coaches and officials. Allowing coaches to adopt a best practice and holistic approach incorporating effective skill consolidation to develop athletes.

EQUIPMENT

All equipment should adhere to FIS specifications. Athlete develops equipment knowledge and maintenance, seeking professional guidance to ensure right fit and match of equipment.

ATHLETE PREPARATION

Complete and adhere to Snow Australia/Club IPP to achieve short, mid and long-term objectives. Explore long-term performance plans and introduce outcome goals to motivate the athlete to acquire skills and fitness. Develop race day routines and practice with distractions present to simulate the competitive experience. Effective management of training and competitive loads. Introduce relaxation techniques to control competitive anxiety. Positive self-talk is critical. Demonstrate the concepts including self-regulation, commitment, control, and strength. Define and implement self-reflection, imagery techniques and coping skills.

DEVELOPING

COMMITMENT AS A PRE-ELITE ATHLETE AND REFINEMENT OF HOLISTIC SKILLS THROUGH EFFECTIVE, DELIBERATE PROGRAMMING

T

3

PRE-ELITE ATHLETE

Dedicated to day to day practice and progressive competition to refine snow-sport skills and execution. Aware of their own training requirements integrating physical, mental, acrobatic, snow skills and technical performance components, continue to refine discipline specific skills. Become more involved with their own development in order to be prepared and competitive within key competitions. Ability to execute consistent and accurate performance skills for relevant discipline in all weather, snow conditions and all terrains. Good balance of sport and vocational commitments and strong sport-life balance and lifestyle activities supporting psychological and physical wellbeing.

PROGRAMS

A blend of AUS Park & Pipe national direction and program activity. Committed to a year-round program. Selection into scholarships such as ETP, NSWIS or VIS. Snow Australia off-snow activities when available.

COMPETITION TARGETS

Performing consistently in International level events, NorAms, Europa Cups. Making finals/podiums in Junior World Champs and World Rookie Tour Finals. Targeted selection into Elite level events, World Cups, for early exposure.

EQUIPMENT

All equipment should adhere to FIS specifications. Athlete consolidates equipment knowledge and maintenance, seeking professional guidance to ensure right fit and match of equipment.

ON-SNOW SKILL DEVELOPMENT

Maximising self-regulatory skills in training and competition environments by identifying their own on-snow strengths and weaknesses, problem solving, and seeking and experimenting with workable solutions. Works to a plan/strategy designed to address key needs maximising their own strengths and minimizing and attending to their weaknesses. Regular freeride activity to further self-challenge and enjoy time out from formal training and competition.

OFF-SNOW SKILL DEVELOPMENT

Dedicated strength and conditioning programs focussing on speed, agility, power, coordination, control and kinaesthetic elements. Ongoing monitoring through an Athlete Management System. Optimising physical, physiological, psychological, tactical, technical and wellbeing qualities. Progression of athlete education initiatives including building their brand, sponsorship, negotiating potential High Performance stressors, anti-doping, financial management etc. Utilise Injury prevention strategies.

LEADERSHIP

Snow Australia, Clubs and Head Coaches. The coach-athlete relationship is built on a mutual trust and respect. The coach-athlete relationship develops into a collaborative partnership with the athlete "self-coaching" and sharing feedback with coaches.

SUPPORT

Snow Australia Discipline Directors, Head Coaches, ETP, NSWIS, VIS and Parents. Supporting sporting efforts and role modelling positive sportsmanship. Showing respect to leadership personnel, coaches, and officials. Allowing coaches to adopt a best practice, holistic and ecological approach incorporating effective skill acquisition to develop athletes and promoting habitual self-regulation by promoting athlete autonomy and problem solving through less prescription.

ATHLETE PREPARATION

Complete and adhere to athlete IPP, benchmarked against international standards to achieve short, mid and long-term goals. Training hours will increase and become more intensive on and off-snow. Work to identify the ideal performance state and implement strategies to achieve this state consistently. Effective management of training and competitive loads. Work towards mastery of all aspects of preparing mentally for competition, by refining their use of positive self-talk and imagery, and after events habitual self-reflection and problem solving. Demonstrate the concepts consistently of strong self-regulation, commitment, control, and strength and coping skills.

PODIUM POTENTIAL

BREAKTHROUGH AND PREPARATION FOR TRANSITION THROUGH ELITE INDIVIDUAL PROGRAM PLANS, BENCHMARKING, COMPETITION PREPARATION AND EXPOSURE

T 4

PRE-ELITE ATHLETE

Achieves a significant breakthrough such as formal recognition by Snow Australia as a prospective senior elite athlete through consistent performances within key international benchmark events. Individually and independently motivated to train. Identified as talented. Athletes utilize expertise of integrated sport science/sport medicine to enhance performance and sustain training schedule.

PROGRAMS

AUS Park & Pipe national programs and direction. Committed to a full-time program. National team representation and/or selection into ETP, NSWIS or VIS.

COMPETITION TARGETS

Podiuming consistently in International level events, NorAms, Europa Cups. Increased participation and making finals in Elite level events, World Cups, for continued exposure.

EQUIPMENT

All equipment should adhere to FIS specifications. Athlete consolidates equipment knowledge and maintenance, seeking professional guidance to ensure right fit and match of equipment.

ON-SNOW SKILL DEVELOPMENT

Works to a plan/strategy designed to address key needs maximising their own strengths and minimising and attending to their weaknesses. Maximising self-regulation skills in training and competition, by identifying own on-snow strengths and weaknesses and seeking own solutions. Extension of physical, mental, acrobatic, snow skills and technical performance competencies through progressively challenging tricks and varied snow conditions and terrains. Regular freeride activity to further self-challenge and enjoy time out from formal training and competition.

OFF-SNOW SKILL DEVELOPMENT

Utilise individual recovery, injury prevention and injury management strategies and techniques. Effectively seek and utilise an individualised and integrated complement of Sport Science/Sports Medicine (SSSM) programming through Athlete Management System (AMS) to case manage their progression.

LEADERSHIP

Snow Australia, Clubs and Head Coaches. Coach-athlete relationships are built through effective communication, trust and respect. Develops into a collaborative partnership with athlete 'self-coaching' and sharing feedback with coaches and driving individual case management.

SUPPORT

Head Coaches, ETP, NSWIS, VIS and Parents. Supporting sporting efforts and role modelling positive sportsmanship behaviour. Showing respect to leadership personnel, coaches and officials. Allowing coaches to adopt a best-practice, holistic and ecological approach to athlete development.

ATHLETE PREPARATION

Complete and adhere to IPP, benchmarked against international standards to achieve short, mid and long-term goals. Athlete utilise expertise of sport science/sport medicine to enhance performance and sustain training schedule. Effective management of training and competitive loads. Ensure progressive competitive opportunity that replicates conditions of key international benchmark events. Work towards mastery of all aspects of preparing mentally for competition, by refining their use of positive self-talk and imagery. Demonstrate self-regulation, commitment, control and strength.

PODIUM READY

ACHIEVEMENT OF AN ELITE STATUS THROUGH SENIOR NATIONAL SELECTION AND REPRESENTATION

E₁

ELITE ATHLETE

Achievement of a senior elite status through selection and representation within key International benchmark events including World Championships and Winter Olympics.

PROGRAMS

AUS Park & Pipe national programs and direction. Committed to a full-time program. National team representation and/or continued selection into NSWIS or VIS.

COMPETITION TARGETS

Performing consistently in Elite level events and has achieved podium success in, X-Games, US Open, World Cups, World Championships and Olympic Winter Games.

EQUIPMENT

All equipment should adhere to FIS specifications. Mastery of equipment knowledge and maintenance is achieved.

ON-SNOW SKILL DEVELOPMENT

Ongoing practice of high skill development, athletes have an ability to read and adapt to terrain, environmental conditions, features, making the right tactical decision (i.e. trick requirements) and executing a full repertoire of technical skills effectively and consistently despite fatigue, pressure, varied conditions. High technical and tactical adaptability and repeatability. Regular freeride activity to further self-challenge and enjoy time out from formal training and competition.

OFF-SNOW SKILL DEVELOPMENT

Utilise an individualised program incorporating diligent recovery, maintenance/regeneration, injury prevention exercises/methods and strength and conditioning. Utilise innovative skill acquisition practices in the gym to challenge and extend physical literacy, dynamic balance, speed and agility. Comply to a multi-dimensional, multi-periodisation plan supported by sport science/sport medicine staff coordinated and monitored through an AMS. Practice mental imagery before training and competition. Cross training in compatible activities and sports.

LEADERSHIP

OWIA/Snow Australia national programs and direction, Snow Australia Discipline Directors and Head Coaches. The coach-athlete relationship is built on a mutual trust and respect. The coach-athlete relationship develops into a collaborative partnership with the athlete "self-coaching" and autonomy and sharing feedback with coaches.

SUPPORT

OWIA, Snow Australia Directors and Head Coaches, NSWIS or VIS (where applicable).

ATHLETE PREPARATION

Contributes to and adheres to Elite IPP to effectively achieve short, mid and long-term goals. Athletes utilises expertise of integrated sport science/sport medicine providers to enhance physical conditioning, readiness and performance. Utilises advanced organisational/management and self-regulatory skills to inform and refine competitive preparation, scheduling, and travel etc. Effective usage of psychological performance strategies. Maintains effective sport-life balance, through performance and lifestyle factors such as recovery, nutrition, hydration, sleep, utilisation of support & service providers etc. Learning to deal effectively with media, public and other potential High Performance stressors. Adherence to anti-doping regulations.

PODIUM READY

ACHIEVING PODIUM SUCCESS IN ELITE COMPETITIONS SUCH AS WORLD CHAMPIONSHIPS, OLYMPIC GAMES AND WORLD CUPS

E₂

ELITE ATHLETE

Achieves a podium performance at a World Cup event, World Championship or Olympic Winter Games.

PROGRAMS

AUS Park & Pipe on/off snow programs and direction, OWIA contract, continued NSWIS/VIS selection.

COMPETITION

Podiuming consistently in Elite level events, X-Games, US Open, World Cups, World Championships and Olympic Winter Games.

ON-SNOW SKILL DEVELOPMENT

Ongoing practice of high skill development, athletes have an ability to read and adapt to terrain park, environmental conditions, fellow competitors, making the right tactical decision (i.e. trick requirements) and executing a full repertoire of technical skills effectively and consistently despite fatigue, pressure, varied conditions. High technical, tactical adaptability, and repeatability. Regular freeride activity to further self-challenge and enjoy time out from formal training and competition.

OFF-SNOW SKILL DEVELOPMENT

Utilise an individualised program incorporating diligent recovery, maintenance/regeneration, injury prevention exercises/methods and strength and conditioning. Utilise innovative skill acquisition practices in the gym to challenge and extend physical literacy, dynamic balance, speed and agility. Comply to a multi-dimensional, multi-periodisation plan supported by sport science and sport medicine staff coordinated and monitored through an AMS. Practice mental imagery before training and competition. Cross training in compatible activities and sports.

LEADERSHIP

Snow Australia national programs and direction, Snow Australia Discipline Directors and Head Coaches. The coach-athlete relationship is built on a mutual trust and respect. The coach-athlete relationship develops into a collaborative partnership with the athlete "self-coaching" and autonomy and sharing feedback with coaches.

SUPPORT

OWIA, Snow Australia Directors and Head Coaches, NSWIS or VIS (where applicable).

EQUIPMENT

All equipment should adhere to FIS specifications. Mastery of equipment knowledge and maintenance is achieved.

ATHLETE PREPARATION

Contributes to and adheres to Elite IPP to effectively achieve short, mid and long-term goals. Athletes utilises expertise of integrated sport science/sport medicine providers to enhance physical conditioning, readiness and performance. Utilises advanced organisational/ management and self-regulatory skills to inform and refine competitive preparation, scheduling, travel etc. Effective usage of psychological performance strategies. Maintains effective sport-life balance, through performance and lifestyle factors such as recovery, nutrition, hydration, sleep, utilisation of support & service providers etc. Learning to deal effectively with media, public and other potential High Performance stressors. Adherence to anti-doping regulations.

PODIUM

SUSTAINED ELITE COMPETITION SUCCESS OVER MULTIPLE HIGH PERFORMANCE CYCLES

M₁

ELITE ATHLETE

Has reached a Mastery status in the sport through achieving multiple podium success over multiple High Performance cycles (i.e. a typical 8-year period based on two High Performance cycles of four years).

PROGRAMS

AUS Park & Pipe on/off snow programs and direction, OWIA contract, continued NSWIS/VIS selection.

COMPETITION

Podiuming consistently in Elite level events, X-Games, US Open, World Cups, World Championships and Olympic Winter Games across multiple high-performance cycles.

ON-SNOW SKILL DEVELOPMENT

Ongoing practice of high skill development, athletes have an ability to read and adapt to terrain, environmental conditions, fellow competitors, making the right tactical decision (i.e. trick requirements) and executing a full repertoire of technical skills effectively and consistently despite fatigue, pressure, varied conditions. High technical, tactical adaptability, and repeatability. Regular freeride activity to further self-challenge and enjoy time out from formal training and competition.

OFF-SNOW SKILL DEVELOPMENT

Utilise an individualised program incorporating diligent recovery, maintenance/regeneration, injury prevention exercises/methods and strength and conditioning. Utilise innovative skill acquisition practices in the gym to challenge and extend physical literacy, dynamic balance, speed and agility. Comply to a multi-dimensional, multi-periodisation plan supported by sport science and sport medicine staff coordinated and monitored through an AMS. Practice mental imagery before training and competition. Cross training in compatible activities and sports.

LEADERSHIP

Snow Australia national programs and direction, Snow Australia Discipline Directors and Head Coaches. The coach-athlete relationship is built on a mutual trust and respect. The coach-athlete relationship develops into a collaborative partnership with the athlete "self-coaching" and autonomy and sharing feedback with coaches.

SUPPORT

OWIA, Snow Australia Directors and Head Coaches, NSWIS or VIS (where applicable).

EQUIPMENT

All equipment should adhere to FIS specifications. Mastery of equipment knowledge and maintenance is achieved.

ATHLETE PREPARATION

Contributes to and adheres to Elite IPP to effectively achieve short, mid and long-term goals. Athletes utilises expertise of integrated sport science/sport medicine providers to enhance physical conditioning, readiness and performance. Utilises advanced organisational/ management and self-regulatory skills to inform and refine competitive preparation, scheduling, travel etc. Effective usage of psychological performance strategies. Maintains effective sport-life balance, through performance and lifestyle factors such as recovery, nutrition, hydration, sleep, utilisation of support & service providers etc. Learning to deal effectively with media, public and other potential High Performance stressors. Adherence to anti-doping regulations.

FIRST DEVELOP A STRONG BASE OF FUNDAMENTAL MOVEMENT SKILLS!

To be a great skier or snowboarder, you first need to have a strong base of athleticism including fundamental movement skills.

Development should first focus on foundational movement skills such as locomotive, balance, and spatial awareness skills. Possessing a well-rounded repertoire of fundamental movements skills such as these, is a key component to building a successful platform for long-term athlete development, maximising your talent potential, versatility and adaptability and minimising risk of injury.

These core skills are developed within on-snow and off-snow environments and may include sampling and cross training in other sports related to the snow sports, free play on practicing and participating in on-snow skills assessments, as well as joining in Snow Australia dry-land program opportunities.

Having a strong base of fundamental movement skills on and off snow, are key to enjoying a lifelong engagement within the sport, becoming a better skier or snowboarder, or for podium success whether it is for the local event, or for a lucky few who aspire to be the world's best.

IT'S A PARTNERSHIP! ALIGNED PATHWAY PROGRAMS

The role of Snow Australia is to be innovative and progressive in developing systems and partnerships to maximise athlete development and progression through the pathway. Having an effective operational pathway blueprint is key to effective pathway management and partnership of the various program providers ensuring visibility, clarity and accountability of athlete support and contributing to a sustainable talent pipeline and elite performance into the future. Key recognised stakeholders supporting this vision and strategy include state institute providers (NSWIS, VIS), ski resorts, clubs, regional academies, schools and commercial operators.

Snow Australia works closely with a number of Affiliated Pathway Programs which support athlete development for Alpine, Freestyle, Snowboard and Cross Country disciplines. Outside of these programs, Snow Australia provides an accreditation process for other pathway providers to ensure quality and alignment of the Snow Australia Athlete Pathway.

For more information, please visit:
<https://www.snow.org.au>

ENJOY AND PLAY ON THE SNOW - FREE SKI AND FREE RIDE

Programs are important in supporting and developing athletes. However, many participants do not realise the importance of free-ski or free-ride activity, unorganised on-snow activities. A high investment in such free play activities, is a common characteristic of our finest athletes. Not only is it fun and a great way to spend time with family and friends, it is a vital component of being innovative and creative, developing skills on a range of terrain, all types of snow conditions, and in all types of weather. These skills can be advantageous in any snowsports competition.

So, when the on-snow programs are done for the day, grab your mates, friends and family, or head out by yourself to enjoy the beauty the resorts have to offer.

A PLACE FOR EVERYONE! MORE THAN ONE WAY TO BE INVOLVED.

COACHING

At all levels of Snowsports, Snow Australia provides participants and athletes with a safe environment to enjoy the sport, develop skills, be competitive, have success and above all – have fun doing it! Snow Australia understands the significant role that instructors and coaches have in enabling athletes to develop and stay in snowsports.

Great coaches contribute to the strong foundations of all our athletes. Instructing at Resorts is a great way to start your journey as a coach in the sport and develop a passion for coaching. Snow Australia has an established coaching pathway in place to support coach development and educational opportunities.

VOLUNTEERING

Providing athletes with the best possible race or sport competition experience relies on the support of volunteers. Volunteering in snowsports is a fun and rewarding opportunity to be involved. From grass-roots participation events, to club races or elite FIS races, the sport needs the support of volunteers to assist in the successful delivery of events.

There are many different volunteer roles that need to be filled on a race or event day and whether it's standing on the side of a course, starting athletes at the top of the hill, or helping an organising committee with bib collections, the sport couldn't exist without the dedication of volunteers. There are plenty of ways to assist, so get in contact with the state discipline committee or club to find out more.
