Mask Etiquette

Find out if you’re up to speed with correct face mask etiquette.

If you are in a location requiring a mask as per government guidance you will need to wear a mask and if you choose to wear a mask, it is important to:

- Wash your hands before putting on the mask.
- Make sure it covers your nose and mouth and fits snugly under your chin, over the bridge of your nose and against the sides of your face.
- Do not touch the front of the mask while wearing it or when removing it. If you do touch the mask, wash or sanitise your hands immediately.
- Remove the mask from behind (do not touch the front of the mask) and immediately dispose of it in a closed lidded bin. Single-use masks should not be re-used and should be discarded immediately after use. Re-useable face coverings should be washed in a washing machine daily (at hottest temperature). Do not allow the mask to hang around your neck.
- Wash or sanitise your hands after removing the mask.
